## School Board Tables Proposed Teacher Pay Hike

The motion to table was made by Board member Max D. Kelley who expressed a desire for further study of the proposed increase. It was indicated that the board planned to take some action on the salary proposal at its last scheduled meeting before the close of the present school term on June 14.

## Governor Urges Poppy Day Support Of Sales, May 20-21

Governor Edmund G. Brown today urged Californians to "buy and wear" veterans' poppies May 20 and 21 in the public sales to be sponsored by the Veterans of Foreign Wars and American Legion.

The Governor pointed out that funds from the sale of poppies are used to help ease the financial problem of disabled veterans and the surviving dependents of war dead.

"We must never become so engrossed in the affairs of today that the lessons of the past become dim," said the Governor. "I urge my fellow Californians to buy and wear veterans' poppies on May 20 and 21 as symbols that they are keeping faith with those who are still undergoing suffering and hardship because of their service to our country."

The Poppy Days chairmen in California are Mrs. Lucille Ganev of Van Nuys, president of the American Legion Auxiliary, and H. R. Rainwater of San Diego, state commander of the Veterans of Foreign Wars.

## ALBANY CENSUS FIGURES 3000 LOW

Councilman Jerome Blank threw a "bombshell" into the Council meeting Monday night when he reported that the U. S. Census Bureau in Oakland gave him preliminary figures showing the City of Albany at least 3000 below previous estimates.

"If these figures are left to stand," declared Blank, "the city stands to lose at least \$18,000 a year in sales tax and vehicle taxes alone. These taxes are distributed on the basis of population figures, and between now and the census in 1970 could total from \$180,000 to \$200,000."

"The census officials at their headquarters at the Army Base in Oakland said they would be willing to hold up their report to Washington for six days if the City wanted to make a recheck to determine if certain individuals or groups had been missed in the count," he continued.

The Council discussed the matter at some length and decided to run "ads" in newspapers to have letters read in the schools in an effort to reach parents, and to take such other steps as the limited time permits.

It was brought out that Oakland and other cities of the East Bay area were not satisfied with the results of the census and were taking steps to recheck their citizens to be sure that none (Continued on Page 2)

had been left out in the count. In other matters the Council acted as follows:

Following a public hearing on the Berkeley-Lee Volkswagen plea for a 12 and one-half foot driveway to the firm's parking lot adjoining Adams Street, a petition signed by 26 property owners of the area was presented, opposing favorable action. A motion by Councilman Blank, seconded by Howell, to grant the access driveway permit, won a majority of 3 to 2, but failed of the 4 out of 5 required for passage in view of the protests of the property owners being more than 20 per cent. Bank, Carlevaro and Howell voted "Aye", while Mayor Zahn and Councilman Cirimelli voted "No."

Copies of communications from the State Fire Marshal and the Department of Industrial Relations Division of Industrial Safety were read by the City Clerk, in which it was stated that the previous letter regarding 'minimum requirements' for repairs and improvements to Albany City buildings still stood, and that the specifications contained therein were the minimum to pass State requirements. Mayor Zahn declared she will

contact the State Fire Marshal's office personally and endeavor to obtain a delay in having this work done. The City Engineer previously had estimated the repairs and improvement listed would cost the City approximately \$80,000. It was brought out that the City has no such sum available to do work at this time. A motion by Councilman Cirimelli, seconded by Carlevaro, to postpone action and endeavor to secure further time from the State officials, was passed. The vote was Carlevaro, Cirimelli and Zahn, for, and Howell and Blank against.

Councilman Howell stated that the matter was a serious one, and that Council members individually would be liable in case of accidents to City personnel, if failure to bring the Fire and Police stations up to State requirements could be proven.

Council action regarding "Clean Up Week" was postponed until next Monday's regular meeting of the council.

A public hearing was set for Tuesday, May 31, on the recommendation of the Planning and Zoning Commission to grant a set-back from 10 feet to 6 feet on a portion of Lot 5, Block 5, Amended Map of Sunset Terrace

(937 Pierce Street.—Michael Edelstein.)

The Park and Recreation Commission's request for \$218 to improve conditions at the pools at Terrace and Memorial Parks was cut to \$158, and the request for two vacuum cleaners to clear the pools was held up for further study.

A petition, signed by 58 persons, asking that Mrs. Marion De Soto be retained at Terrace Park, was referred to Councilman Cirimelli for investigation and report, on motion of Councilman Carlevaro.

### Report Meeting On White House Conference May 18

More than a year ago the President of the United States wrote to every Governor asking that he appoint a State Committee to plan for the White House Conference of 1960 on "Children and Youth". Broad citizen participation was suggested. Governor Brown asked his Advisory Committee on Children and Youth to undertake this task. A report will be made by this committee at a public meeting at the Oakland Auditorium theater at 8 p.m. on Wednesday, May 18.

A word about this Committee: It was first appointed by Governor Warren in 1944 after the "zoot-suit" riots and was known as the Youth in Wartime Committee. It has been in continuous existence, and has been a great help in developing programs for children and youth. It is composed of representative citizens and is assisted by a staff committee from the State Department with responsibilities for children and youth.

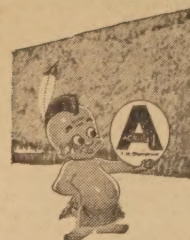

When the names of Californians going to the White House Conference were announced, the County Committee asked the Chairmen of the several Mayor's Committees to join in inviting

all from Alameda County to a get-together meeting. This was held on March 15. At that meeting the conference participants recognized their obligation to share the benefits of their experience with their fellow-citizens and began planning for the County-Wide Report Meeting on May 18. At a meeting after their return they organized the Alameda County Committee on the White House Conference and continued planning the report meeting as the first step in their obligation. They hope to stimulate study of the Conference material and local follow-up.

## Rug Making On A 'Do-It-Yourself' Basis at Center

Interested in a practical "Do-It-Yourself" project? Then you may well be interested in enrolling in one or more of the several popular rugmaking classes — both braided and hooked — available at the Albany Adult Center.

The Braided Rugmaking classes, taught by Mrs. Frances Manning, meet on Friday mornings, 8:30 to 12:30, and Thursday evenings, 6:30 to 10:30, at the Solano Adult Unit, Solano and Cornell Avenues. The braided rug is most versatile and easily adapted to either the early American or modern motif; a small braided rug is often just the right touch needed to cover a worn spot or an area which

has unusually heavy traffic. These rugs, suitable for any room in the home, may be either oval or round and of any size desired.

The Hooked Rugmaking classes are taught by Mrs. Violet Young at Cornell School, 919 Cornell Avenue, Wednesday mornings, 9 to 12, and Wednesday afternoons, 12:30 to 3:30. Under the guidance of Mrs. Young and using old discarded woollens, class members work out their own individual ideas and color schemes to suit their individual decorating needs.

**SEWING CLUB OF ALBANY**  
UNIT 292 of the American Legion Auxiliary will meet May 27 at the home of Mrs. Madeline Simonsen, 622 Curtis at 12:30 p.m. for dessert and coffee followed by a canasta party.

## Defense Director Gives Advice on Disaster Rules

City of Albany Director of Civil Defense, Gerald D. Browne, issued a statement today with regard to the re-ent number of earthquakes prevalent throughout the world. These disastrous quakes have taken a tremendous toll of life and property in other countries and the Albany Director believes a review of some of the basic rules of survival during a quake may be timely. These four basic rules for occupants of buildings in case of an earthquake were prepared by the Structural Engineers Association of Northern California through the request of the San Francisco Disaster Office and the California State Disaster Office. The four basic rules are as follows:

1. Occupants, stay inside, it is generally safer because of falling material to the base of the building.
2. For protection from falling plaster, pictures on the walls and falling bric-a-brac, it is well to crouch under a sturdy table, or stand in a doorway.
3. Keep away from brick fireplaces, heavy chandeliers — they may not be securely fastened as the structure may act independently.

HERE ARE THE NEW OFFICERS of the Albany High School Girls' League, recently elected: Left to right they are, Elaine Coggiola, 16, president; Judy Williams, 15, secretary; Barbara Attfield, 17, vice-president, and Joann Maxwell, 17, treasurer. — Gazette Photo.

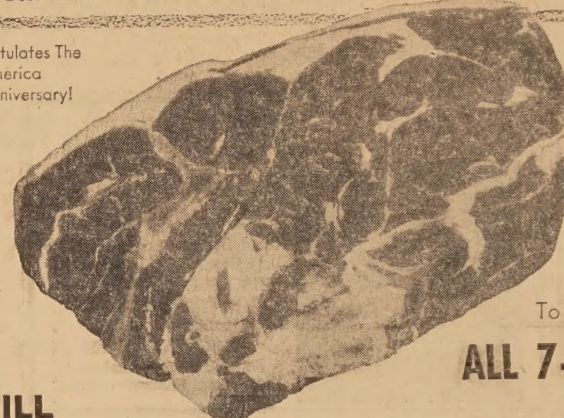

4. Keep away from large glass windows; destruction may be great enough to break glass. Director Browne pointed out that "authorities in the field relate that earthquakes that are small relieve tension. As long as there is a series of small ones, the chance of a big one is not as great." The Albany Civil Defense Organization is organized to cope with situations of this type through leadership of trained personnel. Only through the cooperation of the trained citizen can life and property be kept to a minimum. Local Defense is asking all persons to contact their local defense office for participation in training becoming members.

PG&E to Double Size of Morro Bay Power Plant

Pacific Gas and Electric Company plans to double the size of its Morro Bay Power Plant in San Luis Obispo County, it was announced today by PG&E President N. R. Sutherland. An application to the California Public Utilities Commission for a certificate to build the addition will be filed soon, he said.

The project will add 325,000 kilowatts of electric generating capacity to the plant, raising the total to 655,000 kw and making Morro Bay the second largest steam power station on the PG&E system. Mr. Sutherland said. Only Pittsburg Power Plant in Contra Costa County, largest in the west, will have more capacity.

Work on the Morro Bay project, which will cost more than \$40 million, is scheduled to begin about January 1, 1961, and be

completed in the winter of 1962-1963, the PG&E president reported.

Power from the new unit will be carried across the Coast Range into the San Joaquin Valley over a 220,000-volt transmission circuit costing approximately \$2 million.

PG&E intends to fuel the new unit with fuel oil and natural gas, Mr. Sutherland said. The gas will be brought from the Kettleman Hills region through a 67-mile-long \$4 million pipeline that will be built for that purpose. The pipeline will have enough capacity to serve the en-

tire plant with natural gas, but fuel oil also will be burned, he said.

The PG&E president estimated that 400 men would be at work on the Morro Bay Power Plant expansion at the peak of construction activity. PG&E will function as its own engineer-constructor on the project.

Albany Times:

The Albany Solano Avenue Merchants Association last Christmas made considerable effort to place beautiful trees along Solano Avenue. That these may beautify Solano Avenue in the future is only part of the story. They represent an investment in persons' time, effort and over \$1500 in value. They have to a degree been mutilated by the picking of branches and violators when seen should be censured by any citizen or reported to the police.

They are being watered and fed and cared for by the merchants largely through the courtesy and aid of the Flowerland Nursery. To keep these trees growing, a meeting and drive is soon to be arranged by the Association and, it is hoped that property owners as well as the merchants will contribute toward their care.

The city will be asked to take over the permanent care when the trees have been established. If there is a tree near or in front of your place of business, you will be doing a good deed if you will water it, says Joe Dagna, vice-president and Bud Read, president of the Association.

Cities across America are finding that unless efforts are made to protect, improve and enhance business areas that the business will drift away into the new shopping areas which are more beautiful and appealing to shoppers. A new state "Mall Law" has been passed to aid cities in financing landscaping and planning their main thoroughfares. If a city waits, does nothing and drifts along as Albany is inclined to, obsolescence sets in, property values decline, businesses move elsewhere and nothing remains but a vast expense by the taxpayers to rehabilitate the cities. Oakland downtown and San Francisco are in the midst of just such moves and Albany should take heed. This volunteer movement to improve Solano Avenue needs every encourage-

### CHRISTIAN SCIENCE

Man's age-old longing for a clearer understanding of God and of his own identity is a central theme of the Lesson-Sermon to be read at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon on the subject "Soul and Body" will include the following from Isaiah (55:6): "Seek ye the Lord while he may be found, call ye upon him while he is near."

One of the correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states in part (428:8): "To divest thought of false trusts and material evidences in order that the spiritual facts of being may appear — this is the great attainment by means of which we shall sweep away the false and give place to the true. Thus we may establish in truth the temple, or body 'whose builder and maker is God.'"

The Golden Text is from Psalms (84:2): "My soul longeth, yea, even fainteth for the courts of the Lord: my heart and my flesh crieth out for the living God."

Christian Science Society of Albany meets at 533 San Pablo Avenue. Sunday morning services are held at 11 a.m. and Wednesday evening meetings are at 8 p.m. The Sunday School convenes every Sunday morning at 9:30. Everyone is cordially invited to attend the Sunday morning services and Wednesday evening meetings. All children are welcome to attend Sunday School.
